Customer Reviews

I have read numerous makeup and skin care books over the years and was surprised that this Kindle book had no pictures or photos except what is on the cover. The content was very basic and did not offer anything fresh or new.

Not what i expected. I was hoping for more tutorials and possible dupes for expensive products out there. Still, not a terrible read!

No photos or examples. If you are a complete beginner it's an ok reading overview but nothing more.

The book has great info
