Customer Reviews

Typical, well produced area maps. Good legibility and content organization. In a world of GPS, many see little reason for paper maps. These are still beautiful and functional.

I assumed it would be one of those durable laminated maps but it's printed on cheap paper and it's going to tear soon while I turn it front and back, and it's hard to refold. There's also not much detail. It's huge when spread out but also not enough detail. Just get to Maine and buy one of the spiral bound Maine atlases or the gorgeous Delorme staple bound color map at a gas station. I wish

Delorme sold on .

Bought this map when we took our honeymoon to the state. We did not have a GPS yet, and we spent a couple weeks traveling around the state, pretty much exclusively with this map.

This will help you in Maine when your electronic navigation toys get you lost. Good quality paper should last a while.

So easy to use and so user friendly. Recommed it very highly.

gave me what I wanted to see without buying an expensive map

A very good map and very easy to read.
