Synopsis

Bringing together the clinical know-how of Kathy Bonewit-West, the administrative expertise of Sue Hunt, and the anatomy and physiology knowledge of Edith Applegate, this unique, hands-on text guides you through the medical knowledge and skills you need to succeed in today's fast-paced medical office. The latest standards and competencies for the medical assistant have been incorporated into this new edition, along with expanded coverage on important topics such as nutrition, the electronic medical record, ICD-10, emergency preparedness and disaster planning, time management, and computerized prescription refills. Consistent, meticulous coverage throughout the main text, IRM, SG, DVDs, Evolve, and more provide reliable content and unparalleled accuracy. Over 90 procedural videos on DVD and online provide a visual representation of important procedures. Expanded Student Evolve site contains all animations, games (such as Quiz Show and Road to Recovery), drag-and-drop exercises, Apply your Knowledge exercises, Prepare for Certification exercises, matching exercises, and other helpful activities such as blood pressure readings, determining height and weight, and drawing up medication. What Would You Do? What Would You Not Do? boxes and responses offer applications of real-life case studies. Clear and concise Anatomy and Physiology coverage covers the basics of A&P and eliminates the need for a separate A&P text. Content updates reflect the latest competencies for medical assistants and ensure you have the most current information on the newest trends and updates in the medical assisting world. 8th grade reading level makes material approachable and easy to understand. New chapter on Emergency Preparedness offers a well-rounded perspective on what to do in specific emergency situations. This review is for the brand new book. It came wrapped up in great condition and is quite heavy. This is a book i'll be using for my medical assistant classes and I'm quite content with the condition and content of this book.

how do we answer the case studies when i can't find the answer? the case studies are really short but have a questions at the end of the chapter that do not match the case study. but the rest is easy reading...to the point
