# Concise Encyclopedia Of Periodontology

## Synopsis

The Concise Encyclopedia of Periodontology offers an indispensable guide to the terminology, technical vocabulary, classic clinical cases, and literature of periodontology. A concise, succinct, and portable adjunct to traditional textbooks, it enables readers to search the literature by cross-referencing terms to classic and modern sources and to review specific areas of the subject, easily guiding them through the mass of periodontology sources. The Concise Encyclopedia of Periodontology comprises fully referenced definitions of key perio terms, highlighting the classic literature and influential names associated with each sub-set of periodontology. In addition, there are two further sections of references listed by author and literature cross-referenced to author and procedures. Perfect for the post-graduate student in periodontology, periodontology residents, and those preparing for Board accreditation, adherents of other specialties, especially students of general dentistry and dental hygiene, will also find it a quick and easy way to acquaint themselves with the fundamentals of the subject. A thorough and scholarly tool to aid the study of periodontology.

## Book Information
