Customer Reviews

We purchased the book for fellow grandparents in Michigan. Very pleased. It has a good mix of well known "tourist" sites, but in addition a number of "not so well known" places to take children. Even the better known sites are reviewed well, with good advice for getting the most out of them.

We gave a copy of this book to both of our mothers for Mother's Day last year to announce our pregnancy. It served its purpose and was really cute but the guide is a little wordy and touchy feely.

Exactly What I Was Looking For! We have a couple of grand-daughters that love to sing, and now we can play the music for them to sing along to.

great guide with lots of interesting places to check out

So many great places to see and things to do.
